THE **ALLIANCE NETWORK** is a Professional Network made up of a core committee of LGBT Leaders within Midlands based organisations. Our goal is to offer support and networking opportunities to other LGBT Professionals in the Midlands, as well as organising relevant thought leadership events, sharing best practice and providing a platform to promote LGBT equality in the workplace.

At our next event, we will be joined by a variety of panelists, from different industries and backgrounds to share best practice on the following:

“PROMOTING THE ATTRACTION, DEVELOPMENT AND RETENTION OF LGBT GRADUATES IN THE WORKPLACE”

Our panel will be a selection of graduates who identify as L, B, G or T and 2 business leaders that will answer questions and talk about employer best practice.

The event will result in the production of an Employer Toolkit which organisations can use to make sure you are creating the best possible environment and opportunities for your LGBT employees to come out and be productive in their roles.

We warmly invite you to join us to hear their views and discuss your own thoughts in this highly interactive and engaging networking event.

We hope you can join us.
